

information in compliance with HIPAA, other applicable federal and state laws, and the District's privacy practices.

As required for a Covered Entity under HIPAA, the plan has developed these internal privacy policies and procedures to assure that PHI is protected and that access to and use and disclosure of PHI are restricted in a manner consistent with HIPAA's privacy protections. The policies and procedures recognize routine and recurring disclosures for treatment, payment, and healthcare operations and include physical, electronic, and procedural safeguards to protect PHI. The procedures include safeguards for sending PHI via mail or fax, receiving PHI for plan purposes, and workstation safeguards and procedures for securing and retaining PHI received by the plan. Plan participants are entitled to receive a copy of the plan's policies and procedures upon request.

The District has distributed a notice of privacy practices to plan participants. The notice informs plan participants of their rights and the District's privacy practices related to the use and disclosure of PHI. A copy of this notice may be obtained by contacting the Privacy Officer.

The HIPAA Privacy Rule prohibits the District from disclosing medical information without the patient's written permission other than for treatment, payment, or healthcare operations purposes. An authorization signed by the patient and designating specified individuals to whom the District may disclose specified medical information must be on file, before the plan can discuss a patient's medical information with a third party (such as a spouse, parent, group health plan representative, or other individual).

The District has taken the following steps to ensure PHI is safeguarded:

1. The District has implemented policies and procedures to designate who has and who does not have authorized access to PHI.
2. Documents containing PHI are kept in a restricted/locked area.
3. Computer files with PHI are password protected and have firewalls making unauthorized access difficult.
4. Copies of PHI will be destroyed when information is no longer needed, unless it is required by law to be retained for a specified period of time.
5. The District will act promptly to take reasonable measures to mitigate any harmful effects known to the group health plan, due to a use or disclosure of PHI in violation of the plan's policies, procedures, or requirements of the HIPAA Privacy Rule.
6. The District will appropriately discipline employees who violate the District's group health plan's policies, procedures, or the HIPAA Privacy Rule, up to and including termination of employment if warranted by the circumstances.

The District will ensure health information will not be used in making employment and compensation decisions. The HIPAA Privacy Rule and other applicable laws expressly prohibit an employer from making adverse employment decisions (demotions, terminations, etc.) based

on health information received from the group health plan. To the extent possible, the District has separated the plan operations functions from the employment functions and has safeguards in place to prevent PHI from the plan from going to or being used by an employee's supervisor, manager, or superior to make employment-related decisions.

Complaints

If an employee believes their privacy rights have been violated, they may file a written complaint with the Privacy Officer.
